SUCCESS COACH

SUPPORT

Success Coaches are located directly within Calgary high schools to help youth identify and navigate barriers to completing high school.

Success Coaches work in the school full-time during school hours and can work with youth out in the community or on evenings and weekends when planned in advance.

All In For Youth operates year-round, which means that your Success Coach can connect with you over school breaks to help you work toward your goals.

WHAT WE

DO

Your Success Coach will work with you to identify your strengths and any challenges you may be experiencing.

Together, we'll create an action plan to navigate these barriers.

We work collaboratively with you, your natural supports, school staff, and community agencies to ensure that you have access to the support you need to thrive. Your Success Coach is here for you along the way to encourage and connect you with other resources.
